Art Unit: 3743

Claims 10-11,13 and 15 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 5.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 – 2, 12, 16, and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Suzuki.

Suzuki teaches a card battle game wherein the battles occur in stages and each character card increases its power by virtue of winning battles at lower stages. While Suzuki does not increase the number of cards available at later battles, it would have been obvious to increase the battle power of the character by choosing an additional card to signify a higher strength for the character, instead of storing the new power on the original card, because in both cases the effect is to increase the card's power in the next battle sequence.

Claim 3 – 9 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
